

JOSHUA BOEPPLE

9408 Willow Ridge Road Apt. 2G | Charlotte, NC 28210 | (803) 331-0716 | joshuarboepple@gmail.com

OBJECTIVE

Full Stack Developer with experience in logistics, technical support, and modern web application development. Strong focus on building responsive interfaces, writing clear documentation, and collaborating effectively across teams. Seeking tech-forward roles where adaptability, clear communication, and practical problem-solving drive meaningful impact.

TECHNICAL SKILLS

- **Certifications:** Microsoft Azure Fundamentals (AZ-900), Expected Dec. 2026
- **Languages & Web:** HTML5, CSS3, JavaScript, PHP, Python, SQL
- **Frameworks & Libraries:** React, Node.js, Express, Bootstrap
- **Databases:** MySQL, MongoDB
- **Tools & Platforms:** Git, GitHub, RESTful APIs, VS Code, Chrome DevTools
- **CMS & Page Builders:** WordPress, Beaver Builder, Kadence, Divi
- **Core Competencies:** Responsive Design, Component-Based UI, API Integration, Schema Planning

EXPERIENCE

Freelance Web Developer (Subcontractor) | TW Creative Group | Remote — *June 2026 – Present*

- Subcontract ~10 hours/week supporting web development projects under agency lead.
- Lead schema planning and structured data implementation for client site rebuilds using WordPress and Beaver Builder.
- Support a Drupal-to-WordPress migration for a client site through schema strategy, technical planning, and Kadence/Divi implementation.
- Maintain accurate time tracking and deliverable documentation across concurrent client projects.

Warehouse Associate | Amazon | Charlotte, NC — *May 2024 – Present*

- Achieve consistent rate targets across receiving, scanning, picking, packing, and shipping workflows.
- Operate proprietary internal systems and handheld scanners with high accuracy.
- Maintain a zero-injury record through strict adherence to safety procedures.
- Collaborate with supervisors to meet daily quota goals and streamline workflow efficiency.

PROJECTS

Emergency Prep Progressive Web App | INF 654 Mobile Web Development — *Fall 2025*

- Engineered a full PWA using service workers, web app manifest, and IndexedDB for offline-first functionality.
- Integrated Firebase for cloud synchronization and per-user data storage.

- Built a responsive, installable UI across mobile and desktop environments.
- Authored modular architecture documentation in GitHub repository.

Speech Innovation NC – Capstone Internship Project | INF 490 Capstone Seminar in Informatics — Fall 2025

- Partnered with a local speech pathologist in Pineville, NC to design a web solution supporting therapy service communication and client accessibility.
- Converted stakeholder interviews into actionable development requirements.
- Produced wireframes and user flows focused on accessibility and intuitive navigation.
- Developed React components and deployed final site via Netlify.

EDUCATION

Bachelor of Science in Information Technology and Telecommunications — *Graduated: Dec. 2025* Fort Hays State University | Hays, KS

- Focused coursework in front-end development, mobile UX/UI, database management, and networking principles.
- Gained hands-on experience with HTML, CSS, JavaScript, SQL, and modern web frameworks.
- Developed responsive web applications, integrated APIs, and applied Git version control in collaborative environments.

Associate of Science in Information Technology — *Graduated: Sept. 2022*

South College | Knoxville, TN

- Core curriculum covered systems administration, networking fundamentals, cybersecurity, and hardware/software troubleshooting.
- Gained practical experience configuring operating systems, virtual environments, and foundational programming in Python and JavaScript.

Full Stack Web Development Certificate — *Graduated: Jan. 2020*

University of North Carolina at Charlotte | Charlotte, NC

- Completed intensive training in front-end and back-end web development using JavaScript, Node.js, React, Express, and MongoDB.
- Emphasized agile development practices, RESTful API architecture, and cross-functional team projects.
